

Amsino FLOWSafe IV Sets, Non DEHP & Latex-Free

- 0361-AFS102 100" IV Set, Universal spike w/ drip chamber, 10 drops/ml, FLOWSafe flow controller, AMSafe needless injection site, side clamp & rotating male luer lock, 50/Case
- 0361-AFS106 20" Standard bore extension set, w/ FLOWSafe flow controller, AMSafe needless injection site, female luer, side clamp & rotating male luer lock
- 0361-AFS107 20" Standard bore extension set w/ FLOWSafe flow controller, AMSafe injection site, female luer lock, 50/Case

Gent-L-Kare I.V. Start Kits

Ideal for initiating intravenous therapy, Gent-L-Kare kits contain sequentially packaged, quality components. Depending on institutional preferences, kits are offered with traditional adhesive bandages or transparent dressings. All Gent-L-Kare I.V. Start Kits contain a tourniquet, alcohol prep pad, PVP (ampule or pad), gauze (2"x2"), dressing (adhesive or transparent), Transpore tape and label. For latex sensitive users, a latex-free I.V. Start Kits are also available, with or without gloves. Sterile, packed 100 per case.

- 6709-2601 Latex tourn., alcohol prep pad, PVP prep pad, PVP ointment, 2 gauze, adhesive dressing, transpore tape, and label
- 6709-2602 Latex tourn., alcohol prep pad, PVP prep pad, PVP ointment, 2 gauze, Tegaderm dressing, transpore tape, and label
- 6709-2603 Latex tourn., acetone prep pad, PVP prep ampule, 1 gauze, Opsite dressing, transpore tape, and label
- 6709-2607 Latex tourn., alcohol prep pad, PVP prep pad, PVP ointment, 2 gauze, Tegaderm dressing, transpore tape, and label
- 6709-2608 Latex tourn., alcohol prep pad, PVP prep pad, PVP ointment, 2 gauze, Tegaderm dressing, transpore tape, label, latex gloves
- 6709-2609 Latex-free tourn., alcohol prep pad, PVP prep pad, PVP ointment, 2 gauze, Tegaderm dressing, transpore tape, label, latex-free gloves

Amsino Cleansing Enema Bag/Bucket Set

- 0361-AS330 1,500cc bag w/60" tubing, pre-lubricated tip, soap packet, waterproof drape, 50/Case
- 0361-AS333 1,500cc bucket w/60" tubing, pre-lubricated tip, soap packet, waterproof drape, 50/Case

Clear-Cath® Catheters

Clear catheter-over-needle with vented flashback chamber for immediate evidence of vein entry. Continued position in the vein is verified by flashback through the clear cannula as the needle is withdrawn, thus reducing the risk of infiltration and reducing patient discomfort. Ultrasharp tip, electronically formed, provides consistently low penetration force. Double-beveled needle eases insertion, reduces tissue trauma and coring. Catheter tip is uniquely designed to minimize splitting or curl-back. Lock-in molded catheter/hub connection reduces the danger of separation. Stripe on catheter is highly radiopaque. The catheter is Teflon®. Two units per pack, 60 packs per case.

- 0409-4532-08 Clear-Cath 18 x 1-1/4, Green, 21G Needle, 18G Catheter x 1-1 /4" L
- 0409-4532-18 Clear-Cath 18 x 2, Green, 21G Needle, 18G Catheter x 2" L
- 0409-4532-02 Clear-Cath 20 x 2, Pink, 23G Needle, 20G Catheter x 2" L Wheel, 22 G x 1-1/2" Infiltration, 2-1/2 mL Syringe

Amsino Vaginal Irrigation Set

- 0361-AS350 1,500cc bag w/48" tubing, slide clamp, smooth vaginal tip, 50/Case

Triad® Enemas

Ready for use, Triad, Enemas are available in Sodium Phosphate or Mineral Oil, USP formulas.

Housed in a latex-free pliable, low-density polyethylene bottle, these enemas are freestanding to

reduce the risk of tip contamination and equipped with a reflux valve to prevent backflush. The shaft of the enema is designed so that the tip is not in a position to perforate or abrade the sigmoid portion of the colon of a healthy adult and is lubricated for patient comfort and ease of insertion. Available in safety-sealed box or in bulk.

- 2954-10-2111 Sodium Phosphates Enema, boxed, 48/cs
- 2954-10-2112 Sodium Phosphates Enema, bulk, 48/cs
- 2954-10-2113 Mineral Oil Enema, boxed, 48/cs

IMCO Suture Removal Kits

Disposable sterile suture removal kits offer convenience and extra protection against cross infection. Plastic Tray provides sterile field. Contents: Littauer Scissors, 4" forceps, gauze sponge
2071-4521-IMC Suture Removal Kit, 50/case

Busse Sterile Suture Removal Kits

50/case.

- 1111-717 With Littauer (hook-tipped) Scissors, Deluxe Plastic Posi-Grip™ Forceps & one 3" x 3" gauze sponge
- 1111-718 With Littauer (hook-tipped) Scissors, 4" Metal Forceps, one 3" x 3" gauze sponge

Busse Sterile Suture Removal Kits

Featuring Floor-Grade Instruments

Contents:

- One tray
- One floor-grade Iris suture scissors
- One floor-grade Adson serrated forceps
- One 3" x 3" gauze sponge
- One large alcohol prep pad
- One iodophor PVP prep pad

1111-723 Sterile Suture Removal Kits, 50 kits/carton

Busse Sterile Suture Removal Kit

Contents:

Same as Cat. No. 723, with floor-grade, Littauer (hook-tipped) suture scissors in place of the Iris.

1111-726 Sterile Suture Removal Kit, 50 kits/carton

Busse Sterile "Classic" Suture Removal Kit

Contents:

- One tray
- One plastic handle Littauer (hook-tipped) scissors
- One Posi-Grip™ plastic forceps
- One 3" x 3" gauze dressing

1111-737 Sterile "Classic" Suture Removal Kit, 48 kits/carton

Busse Sterile Skin Staple Remover

Made of high grade stainless steel, Busse skin staple remover allows fast, easy removal. Each sterile kit contains skin staple remover and a 3" x 3" gauze sponge.

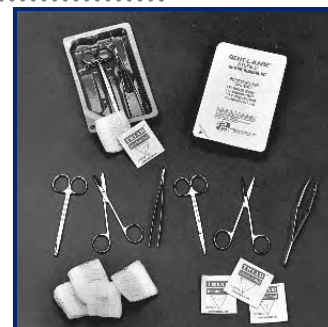

1111-716 Staple Remover, 48/cs

1111-770 Dispenser Packed, 12/disp, 48/cs

Suture Removal Kits

Gent-L-Kare® suture removal kits are available with either stainless steel wire-formed or stainless steel metal instruments. Several suture removal kits are offered. All kits are packaged 50/case.

6709-2632 Stainless Steel Instrument Kit w/Iris Scissors, Thumb Forceps, Alcohol Prep Pad, & 2 x 2 Gauze

6709-4131 Wire Formed Instrument Kit w/Littauer Scissors, Metal Forceps, Alcohol Prep Pad, PVP Prep Pad, & 2 x 2 Gauze

6709-4136 Wire Formed Instrument Kit, Facial Littauer Scissors, Suture Forceps, Alcohol Prep Pad, PVP Prep Pad, 2 x 2 Gauze

Busse Safety ER Laceration Tray

- One tray
- One CSR wrap
- Ten 4" x 4" gauze
- Five 2" x 2" gauze dressings
- One 18g x 1-1/2" safety needle
- One 27g x 1-1/2" needle
- One 25g x 5/8" safety needle
- One needle stick block
- One 10cc/12cc Luer Lock syringe
- Two medicine cups
- One Needle Holder
- One scissors
- One Mosquito hemostat
- One forceps
- One fenestrated drape
- Two towels

1111-546 Busse Safety ER Laceration Tray,
ClothTowels, 20 trays/carton

1111-549 Busse Safety ER Laceration Tray,
20 trays/carton

Busse Safety Incision & Drainage Instrument Tray

- One polybag with twist tie
- One polylined fenestrated drape
- One polylined drape
- Two Iodophor PVP prep pads
- Four cotton filled sponges
- One safety scalpel (No. 11 blade)
- One Posi-Grip™ thumb forceps
- One straight Kelly Hemostat

1111-558 Busse Safety Incision & Drainage
Instrument Tray, 20 trays/carton

Busse Suturing Tray

Tray is supplied without needles. Clinician may use safety components of their choice.

- One compartment tray
- One CSR wrap
- Eight 4" x 4" gauze
- Five 2" x 2" gauze dressings
- One absorbent towel
- One fenestrated towel
- One Adson tissue forceps
- One Iris scissors
- Two medicine cups
- One needle holder

1111-747 Busse Suturing Tray, 20 trays/carton

Busse Saf-Shield™ Irrigation Splash Guard

Fits all syringes – Luer Lock or Slip-Fit and the protective dome acts as a shield against splash back.

1111-766 Busse Saf-Shield™ Irrigation Splash
Guard, Sterile, 50/carton

Medegen Laceration Trays

Medegen's laceration trays are carefully assembled with quality materials. Choose among our satin finished or stainless steel instruments. All laceration trays are sterile and contain an assortment of components including gauze sponges, needles, needle holder, syringe, scissors, forceps, and towels.

Instruments & Cloth Towels, 20/cs

6709-2687 Laceration Tray w/Stainless Steel
Instruments & Cloth Towels, 20/cs

6709-2688 Laceration Tray Minor w/Paper Towel

Busse Basic Nerve Block Tray

Prep Components

- 1 1 oz PVP Solution
- 3 Sponge Sticks
- 4 3" x 3" Gauze Dressings
- 2 Absorbent Towels
- 1 Skin Marker
- 1 6" Flexible Ruler
- 1 Integral Prep Well
- 1 Clear Fenestrated Drape with Adhesive Strip

Procedure Components

- 1 1cc Plastic Luer Lock Syringe
- 1 3cc Plastic Luer Lock Syringe
- 1 5cc Plastic Luer Lock Syringe
- 1 20cc Plastic Luer Lock Control Syringe
- 1 18g x 1-1/2" Needle
- 1 25g x 1-1/2" Needle
- 1 Filter Needle
- 1 Needle Stick Block
- 1 5mL Ampule 1% Lidocaine
- 1 Integral Mixing Well
- 1 Adhesive Bandage
- 1 CSRWrap

1111-672 Busse Basic Nerve Block Tray, 10/case

Busse Single Shot Epidural Tray

Prep Components

- 1 1 oz PVP Solution
- 3 Sponge Sticks
- 4 3" x 3" Gauze Dressings
- 1 Absorbent Towel
- 1 Integral Prep Well
- 1 Clear Fenestrated Drape with Adhesive Strip

Procedure Components

- 1 18g x 3-1/2" Tuohy Epidural Needle with Wings
- 1 5cc Glass LOR Metal Luer Slip Syringe
- 1 3cc Plastic Luer Lock Syringe
- 1 20cc Plastic Luer Lock Syringe
- 1 18g x 1-1/2" Needle
- 1 25g x 1-1/2" Needle
- 1 Filter Needle
- 1 Needle Stick Block
- 1 5mL Ampule 1% Lidocaine
- 1 10mL 0.9% Sodium Chloride
- 1 Integral Mixing Well
- 1 Adhesive Bandage
- 1 CSRWrap

1111-670 Busse Single Shot Epidural Tray, 10/case

Busse Continuous Epidural Tray

Prep Components

- 1 1 oz PVP Solution
- 3 Sponge Sticks
- 4 3" x 3" Gauze Dressings
- 1 Absorbent Towel
- 1 Integral Prep Well
- 1 Clear Fenestrated Drape with Adhesive Strip

Procedure Components

- 1 20g Closed-End Epidural Catheter
- 1 Thread Assist Guide
- 1 Tuohy Borst Adapter
- 1 Catheter Pad
- 1 Epidural Filter
- 1 18g x 3-1/2" Tuohy Epidural Needle with Wings
- 1 5cc Glass LOR Metal Luer Slip Syringe

- 1 3cc Plastic Luer Lock Syringe
- 1 20cc Plastic Luer Lock Syringe
- 1 18g x 1-1/2" Needle
- 1 25g x 1-1/2" Needle
- 1 Filter Needle
- 1 Needle Stick Block
- 1 1mL Ampule 0.1% Epinephrine
- 1 5mL Ampule 1% Lidocaine
- 1 5mL Ampule 1.5% Lidocaine with Epinephrine
- 1 10mL 0.9% Sodium Chloride
- 1 Integral Mixing Well
- 1 Adhesive Bandage
- 1 CSRWrap

1111-671 Busse Continuous Epidural Tray, 10/case

Busse Safety Amniocentesis Tray

Components necessary to safely sample amniotic fluid with engineered sharps protection components.

- Ultra sharp 20g spinal needle facilitates depth positioning with etched centimeter marks along cannula.
- Pre-numbered amber vials protect light-sensitive samples.

Contains:

- One multi-compartment tray with prep well
- One spinal needle with stylet, 20g x 3-1/2"
- One Luer Lock syringe, 20cc
- One Luer Lock syringe, 6cc
- One safety needle, 25g x 5/8"
- One safety needle, 22g x 1-1/2"
- One needle stick block
- Three sponge sticks
- Three gauze pads
- Three amber specimen vials, pre-numbered, with caps, 10ml
- One fenestrated drape with adhesive strip
- One towel
- One Lidocaine Hydrochloride USP, 1%, 5ml with drug precaution sheet
- One ruler, 6"
- One CSR wrap
- One bandage
- Three patient ID labels

1111-950 Busse Safety Amniocentesis Tray, 10/case

Busse Safety Bone Marrow Biopsy/Aspiration Trays

Common Components Include:

- Two multi-compartment "double-deck" trays
- One Luer Lock adapter
- Three Povidone-Iodine swabsticks
- One Lidocaine Hydrochloride USP, 1%, 5ml with drug precaution sheet
- One safety scalpel
- One syringe, 6cc syringe with safety needle, 20g x 1-1/2"
- One Luer Lock syringe, 20cc
- One safety needle, 25g x 5/8"
- One safety needle, 21g x 1-1/2"
- One bandage
- One CSR wrap

Unique components include:

With 11 Gauge x 4" Biopsy Needle and 15 Gauge Aspiration Needle

- Adjustable from 3/8" to 1-7/8"
- One J-Style Bone Marrow Biopsy needle, 11g x 4"
- One I-Style Aspiration needle, 15g, adjustable from 3/8" to 1-7/8"
- Two specimen tubes containing edetate (EDTA) potassium
- Ten frosted microscope slides
- One amber specimen vial with cap
- One stirring rod
- One stylet with guide
- One extra cap
- Two foam needle stick blocks
- One towel
- One fenestrated drape with adhesive strip
- Five gauze pads
- One patient ID label

1111-952 With 11 Gauge x 4" Biopsy Needle and 15 Gauge Aspiration Needle, 10/case

With 11 Gauge x 4" Biopsy Needle

- One J-Style Bone Marrow Biopsy needle, 11g x 4"
- Two specimen tubes containing edetate (EDTA) potassium
- Ten frosted microscope slides
- One amber specimen vial with cap
- One stirring rod
- One stylet with guide
- One extra cap
- One foam needle stick block
- One towel
- One fenestrated drape with adhesive strip
- Five gauze pads
- One patient ID label

1111-953 With 11 Gauge x 4" Biopsy Needle, 10/cs

With 11 Gauge x 4" Biopsy Needle and 15 Gauge Aspiration Needle

- Adjustable from 3/8" to 1-7/8"
- One J-Style Bone Marrow Biopsy needle, 11g x 4"
- One I-Style Aspiration needle, 15g, adjustable from 3/8" to 1-7/8"
- One towel
- One fenestrated drape with adhesive strip
- One stylet with guide
- One extra cap
- Two foam needle stick blocks
- Eight gauze pads

1111-954 With 11 Gauge x 4" Biopsy Needle and 15 Gauge Aspiration Needle, 10/case

With 15 Gauge Aspiration Needle

- Adjustable from 3/8" to 1-7/8"
- One I-Style Aspiration needle, 15g, adjustable from 3/8" to 1-7/8"
- Two specimen tubes containing edetate (EDTA) potassium
- Ten frosted microscope slides
- One amber specimen vial with cap
- One stirring rod
- One foam needle stick block
- One towel
- One fenestrated drape with adhesive strip
- Five gauze pads
- One patient ID label

1111-955 With 15 Gauge Aspiration Needle, 10/cs

Busse Safety Basic Soft Tissue Biopsy Tray

Components required for skin preparation and handling of the aspirated sample with engineered sharps protection components.

- May be used during CT guided biopsies.
- Provided without needle to allow practitioner to use needle of their choice.

Contains:

- One multi-compartment tray with prep well
- One Luer Lock syringe, 20cc
- One Luer Lock syringe, 6cc
- One 3cc syringe with safety needle, 25g x 5/8"
- One safety needle, 20g x 1-1/2"
- One safety needle, 22g x 1-1/2"
- Two sponge sticks
- Four gauze pads
- Six frosted microscope slides
- One safety scalpel
- Two specimen vials, pre-numbered, with caps, 10ml
- One fenestrated drape with adhesive strip
- Two towels
- One Lidocaine Hydrochloride USP, 1%, 5ml with drug precaution sheet
- One ruler, 6"
- One CSR wrap
- One bandage
- Two patient ID labels

1111-951 Busse Safety Basic Soft Tissue Biopsy Tray, 10/case

Busse Safety Lumbar Puncture Trays

Common Components Include:

- One multi-compartment tray with prep well
- One 3cc syringe with safety needle, 25g x 5/8"
- One needle stick block
- Three sponge sticks
- Three gauze pads
- One fenestrated drape with adhesive strip
- One towel
- One Lidocaine Hydrochloride USP, 1%, 2ml with drug precaution sheet
- One CSR wrap
- One bandage

Unique components include:

Safety Pediatric/Infant Tray

- One spinal needle with stylet, 21g x 2-1/2"
- One piece manometer, 350mm

- One 5" extension tube
- One three-way stopcock
- Four specimen vials, pre-numbered, with caps, 10ml
- Four patient ID labels

1111-945 Safety Pediatric/Infant Tray, 10/case

Safety Pediatric/Infant Tray

- One spinal needle with stylet, 22g x 1-1/2"
- Three specimen vials, pre-numbered, with caps, 10ml
- Three patient ID labels

1111-946 Safety Pediatric/Infant Tray, 10/case

Safety Adult Tray

- One spinal needle
- One safety needle, 22g x 1-1/2"
- Two piece manometer, 550mm
- One 5" extension tube
- One three-way stopcock
- Four specimen vials, pre-numbered, with caps, 10ml
- Four patient ID labels

1111-947 Tray w/18g x 3-1/2" Spinal Needle, 10/cs

1111-948 Tray w/20g x 3-1/2" Spinal Needle, 10/cs

1111-949 Tray w/22g x 3-1/2" Spinal Needle, 10/cs

Busse Safety Myelogram Tray

Components necessary to safely sample cerebral spinal fluid and the injection of water-based contrast media (not for use with oil-based contrast media) with engineered sharps protection components.

- Ultra sharp 22g x 3-1/2" spinal needle.

Contains:

- One multi-compartment tray with prep well
- One spinal needle with stylet, 22g x 3-1/2"
- One 5" extension tube
- One 20" extension tube
- Three specimen vials, pre-numbered, with caps, 10ml
- One Lidocaine Hydrochloride USP, 1%, 5ml with drug precaution sheet
- One Luer Lock syringe, 6cc with safety needle, 25g x 5/8"
- One Luer Lock syringe, 20cc
- One safety needle, 18g x 1-1/2"
- One safety needle, 22g x 1-1/2"
- One needle stick block
- One towel
- Three gauze pads
- Three sponge sticks
- One fenestrated drape with adhesive strip
- One CSR wrap
- One bandage
- Three patient ID labels

1111-956 Busse Safety Myelogram Tray, 10/case
